Research Papers

Abrasive Wear Resistance of Hypoeutectic 16 wt% and 26 wt% Cr Cast Irons with Molybdenum
*S. Inthidech, Y. Matsubara* .................................................................................................................. 1

Application of Microcontroller for Controlling HHO Dry Cell in Small Trucks
*W. Sa-ngiamvibool, A. Aurasopon* ........................................................................................................... 10

Effects of Extraction Factors on Total Phenolic Compounds and Antioxidant Activity in Mulberry Leaves
*P. Supakot, J. Kubola, C. Bungthong* ..................................................................................................... 14

Analysis and Characterization of the Nutrient Concentration of That Luang Marsh Attributed to Wastewater Discharges from Vientiane City, Lao PDR
*S. Inkhamseng, V. Vilaysane* .................................................................................................................. 20

Review Paper

Sustainable Polymers: From Recycling of Non-Biodegradable to Renewable Resources Composites and Foams
*Y. Srithep, L. Turng, J. Morris, D. Pholharn, O. Veangin* ................................................................. 24
