Contents

Research Papers

Abrasive Wear Resistance of Hypoeutectic 16 wt% and 26 wt% Cr Cast Irons with Molybdenum
S. Inthidech, Y. Matsubara ........................................................................................................ 1

Application of Microcontroller for Controlling HHO Dry Cell in Small Trucks
W. Sa-ngiamvibool, A. Aurasopon .............................................................................................. 10

Effects of Extraction Factors on Total Phenolic Compounds and Antioxidant Activity in Mulberry Leaves
P. Supakot, J. Kubola, C. Bungthong ....................................................................................... 14

Analysis and Characterization of the Nutrient Concentration of That Luang Marsh Attributed to Wastewater Discharges from Vientiane City, Lao PDR
S. Inkhamseng, V. Vilaysane ..................................................................................................... 20

Review Paper

Sustainable Polymers: From Recycling of Non-Biodegradable to Renewable Resources Composites and Foams
Y. Srithep, L. Turng, J. Morris, D. Pholharn, O. Veangin ............................................................. 24

ISSN 2408-1957

A peer-reviewed publication by Faculty of Engineering, Mahasarakham University, Thailand
